

ACHI

by LUNATIK ATHLETIKS

PERFORMANCE COMPRESSION SOCKS
15-22 mmHg

PREVENTION

www.lunatikathletiks.com

ACHI graduated compression socks deliver a controlled amount of pressure which is greatest at the ankle and gradually decreases toward the top of the sock. ACHI socks function like a massage while pumping and circulating the blood towards the heart.

WHY BUY 15-22 mmHg COMPRESSION SOCKS?

- Suffering from tired, achy legs or minor swelling?
- Going on a business trip, vacation or road trip?
- Pregnant?
- Sitting or standing for long periods of time at work or play?
- Athletic activities, recovering from endurance sports and muscle fatigue?

IT'S ALL ABOUT YOUR LEGS

- Increase blood flow and oxygen delivery in your veins.
- Protect your legs from muscle vibration and improve endurance.
- Increase recovery time with less injuries.
- Prevent spider veins.

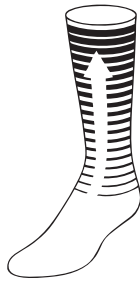

LOYALIST INFORMATION:

MEDICAL COMPRESSION SOCKS
20-30 mmHg

MEDICAL
